

# STONY PLAIN SUN.

VOLUME TWELVE.

STONY PLAIN.

ALBERTA, THURSDAY, APRIL 21, 1932

Whole No. 601

## A Course of Lectures on Christian Fundamentals.

What does the Church stand for?  
What are the principal doctrines of Christian religion?  
What does the Church teach regarding creation, redemption, life, death, resurrection, heaven, hell, etc?  
What principles does the Church espouse?  
What claim has it upon my interest and attention?  
Has the Church something that I need?  
Does it solve the problems of my life?

The answer to these and similar questions will be given in a series of lectures for adults, which will be held on Every Tuesday Evening, from 8 to 9 o'clock, beginning Tuesday, April 26.

Everybody is invited to these lectures. Attendance involves no memory work, nor any obligation as to eventual membership in the Church.

The Lectures are for such as wish to become familiar with the doctrinal position of the Lutheran Church.

Attendees at the course will, at the conclusion of the Lectures be eligible for Church membership; but no pressure will be brought to bear on them towards affiliation with the Church.

Our own Church members are welcome to join the Class.

PASTOR KIRKING will conduct this Class at St. Matthew School No 2, Stony Plain.

## IMPORTANT NOTICE Government of Alberta

### INCOME TAX RETURNS

Income tax returns under the new Provincial Income Tax, are now due and should be filed with the Superintendent of Income Tax, Qu'Appelle Block, Edmonton, BEFORE MAY 31, 1932

Forms for returns may be procured from any Provincial Government Office, such as court houses, land titles office, land offices, municipal secretaries, sheriffs, bailiffs, etc., or from any bank, or direct from the Supt. of Income Tax, Edmonton

All persons residing, employed or carrying on business in Alberta, are liable to a tax on income, subject to the exemptions provided for in the Act.

Taxpayers are urged to go at once to the nearest office where forms may be procured, secure the necessary forms and make their returns immediately. Those who, after deducting the exemptions allowed in the Act, are not liable to a tax, need not file returns.

Full information re exemptions and method of filing returns, is contained on the forms themselves.

The general penalty for failure to file returns by the date specified is 5 percent of the amount of tax payable, with a maximum of \$500. Specific penalties are provided for failure to file returns under certain classifications.

### CLASSIFICATION OF FORMS.

**Form 1** is for Individuals other than farmers or ranchers.

**Form 1A** is for Farmers and Ranchers only.

**Form 2** is for Corporations and Joint Stock Companies.

**Form 3** is for Trustees, Executors, Administrators, Agents and Assignees.

**Form 4** is for Employers, including educational, charitable and religious institutions, making a return of the names and amounts paid to directors, officials, agents or other employees during 1931.

**Form 5** is for Companies and Joint Stock Companies making a return of all dividends and bonuses paid to shareholders and members during 1931.

Further information will be furnished on application to

### INCOME TAX BRANCH

Qu'Appelle Block, Edmonton.

HON. R. G. REID,  
Provincial Treasurer.

R. M. GUNDERSON,  
Supt. of Income Tax

## The Foretellers.

The Mdle. Caranza Sabatini, the Romany queen, paid this town a visit on Friday, and gave a demonstration of the art of divination at so much per. In trade for a hair "bob," she told the operator he was "going on a long trip; that he owed an out-of-town man a sum of money; that he was a very popular young man; and that he would be married within a year."

The Mademoiselle had an attendant satellite who posed as a crystal gazer.

## Changes in the Game Act.

Hunters going west in quest of moose, caribou, wapiti and mule deer will not be required to wear a complete suit of scarlet color, as had been the understanding with reference to a clause in the new Game Act. A strong protest against this clause was lodged, on behalf of the Edson Game and Fish Protective League; so it now will only be necessary to wear a scarlet upper garment when deer stalking.

Among the other important amendments is the one that non-resident hunters will not be compelled to hire the services of a licensed guide, but they must be accompanied by a resident or a regularly licensed guide.

## Muskat Season Lengthened.

A communication received from J. F. Andrew, assistant deputy minister, Dept. of Agriculture, says: "I beg to advise you that the Lieut.-Governor in Council has decided to extend the open season for the taking of rats in that part of the Province lying to the north of the North Saskatchewan river and to the south of Township 91 from the 15th day of April to the 1st day of May, 1932.

## "Civil Service,"

the Walther League's annual play, will be given at Moose Hall tomorrow (Friday) Evg., April 22nd, at 8 "Civil Service" is a comedy drama of post-office employees in a small city in the West. Steve Audaine, the hero, has been living beyond his means and is deeply in debt. He steals money from a letter R.F.D. who has spent 15 years in gaol, takes the blame; Ruth Kenyon, stamp clerk—Don't miss this play.

## Wheat Pool's 2d Payment.

The Wheat Pool's second payment totals seem to confirm the assumption that only a small proportion of the wheat of the members has been pooled this year, says an exchange. It amounts to only about three million bushels in the three prairie provinces, tho \$175,000 of the \$300,000 that is being disbursed to those who adhered to the plan comes to Albertans.

## Get It at HARDWICK'S.

## Running Shoes:

Children's, 65c.;  
Boys', 85c. and 95c.  
Men's, 95c. and \$1.

## Ladies' Hats,

A fresh lot just in, \$1.95 & \$2.95.

## Men's Work Boots,

A full line; from \$2.45 up.

## Fine Voiles,

for Spring and Summer wear;  
29c. yard.

## HARDWICK'S

Agents Alberta Dairy Pool Cream.

## PREVENTION OF DISEASE AND SICKNESS

Will cost you far less than curing the trouble after it has started.

## The Stony Plain Pharmacy

Can supply you with all kinds of Disinfectants and Insecticides, to destroy Disease Germs and Vermin, as follows:

Kreso and Kreso Dip, Disinfectant No. 6;  
(above items are standardized.)

Izal, Lysol, Creolin, Carbolic Acid,  
Bichloride Mercury Tablets, Permanganate Potash, and Chloride Lime,

Larkspur Lotion for use on young Chicks and Turkeys;

Agents for Victor Radios and Records.

Your Druggist, **J. F. CLARKE.**

## For All Who Prefer Quality

# "TEA"

"Fresh from the Gardens"

## Reducing Costs Of Government

Continuing discussion of the above subject, let us consider in a little more detail some of the many duplications in services on the part of the Federal and Provincial Governments.

First, agriculture. Both Governments maintain experimental farms or experiment, illustration or demonstration stations, forestry farms, etc. This work should be confined exclusively either to the Dominion or to the Provinces, and, as conditions vary so greatly as between the provinces, this class of work might well be left to them. The Dominion Department of Agriculture might well confine its efforts to establishing and maintaining standards of weight and quality of all agricultural and allied products, safeguarding the health of animals, preventing the introduction of diseased animals, impure seed, and infected tree and plant life from abroad. Responsible for the fixing and maintaining of standards of quality, the Dominion would likewise be responsible for promoting the sale of these high standard products in the markets of the world. Let the provinces look after the educational and production end and the Dominion the maintenance of uniform Canadian standards and the development of our export markets for these uniformly high quality products irrespective of province in which they are produced.

Public health. Here, too, the Dominion might well confine its work to safeguarding the health of all through the prevention of disease resulting from disease-afflicted people entering the country, while leaving to the provinces the general work of health education among its people, health inspection and disease prevention. And just as the prairie provinces now pay the Dominion for police services, so the Dominion might pay the provinces for carrying on the necessary health work among the Indian wards of the nation. The Federal Department of Health could thus be done away with, and the work performed through the Immigration Department on the one hand and the Provincial Departments of Public Health on the other hand.

Then there is that most prolific source of friction between Federal and Provincial Governments, namely, company incorporation, company law, inspection, taxation, etc. Hardly a year passes that there is not some reference before the courts to settle the respective jurisdiction of Federal and provincial authorities in regard to these subjects. There is also the heart-burning issue where provincial governments through local government boards, utility commissions, or some similar body, seek to protect their people from irresponsible, not to say dishonest, company promoters and high pressure stock salesmen, but whose best efforts are brought to naught because such companies by obtaining Dominion rather than provincial incorporation can defy the provinces.

It would seem as if all company incorporation should be Dominion, rather than partly Dominion and partly provincial. Then any company could do business in any or all the provinces. If some company desired to engage in a purely local business, its incorporation fee might be made smaller, and its charter so restricted, if desirable, but if all company incorporation was vested in the Dominion, all incorporation fees could be reduced and at the same time Dominion revenues would be increased. Certainly, a vast amount of friction and litigation, not to speak of much duplication in taxation, would be ended, and all Canadian business except the lawyers, would benefit thereby.

Changes such as suggested would mean loss of revenue to the provinces, and increased revenues to the Dominion. It therefore follows that there should be a readjustment of taxing powers. Under the B.N.A. Act, the provinces are limited in their taxing power to the imposition of direct taxes, while the Dominion can impose both direct and indirect taxes. The field of indirect taxation is much wider than the field of direct taxation. The Dominion, therefore, might well withdraw from the latter field and leave it to the provinces. By and large this would mean the dropping by the Dominion of the income tax, and leaving that source of revenue exclusively to the provinces.

This is surely worthy of consideration. In the meantime, however, with both Federal and Provincial Governments levying taxes upon income, and with both governments maintaining income tax departments for the levying and collection of these taxes, is it not possible to eliminate the waste of taxpayers' money resulting from such duplication of departments by some arrangement whereby either the Dominion would collect for the provinces, or the provinces would collect their taxes would likewise like the collection for the Dominion? Whichever body was saved the expense might pay to the other a percentage fee on the money collected for it. Not only would the money now wasted in duplication of collecting agencies be saved, but the public would be relieved of much annoyance and the necessity of filing duplicate sets of returns and calculations.

Furthermore, surely it is high time a stop was put to such practices as the one introduced in the recent budget at Ottawa whereby the Dominion imposes a tax on businesses conducted by provincial governments. The recent budget imposes a tax of five cents on every long distance telephone call. This really means an increase of that amount in long distance telephone tolls, which business in these prairie provinces is the exclusively business of the provincial governments. If that additional sum is to be extracted from the patrons of the long distance lines, then it should accrue to the provincial governments, and not to the Dominion. But the Dominion steps in and imposes this tax on provincially-owned public utilities, and even throws additional expense upon the provinces to collect the tax, and do the additional bookkeeping and accounting work which it will entail. This is most illogical and unfair. It would be just as reasonable for the provinces, if they had the power, to impose a tax upon the business transacted by the post office department.

So, in conclusion, we would again emphasize the view expressed in a previous article in this column, namely, that it is expedient that a conference of all the provinces with the Dominion be held with a view to revising the B.N.A. Act, removing therefrom the many causes of dispute between the Federal authority on the one hand and the provinces on the other, more definitely defining the spheres of control of each, and thus creating more respective fields of taxation. The taking of such action would be a long step forward towards reducing costs of government in this country.

## Sorry To See Night Coming She Could Not Sleep

Mrs. K. McElroy, Kirkfield, Ont., writes:—"I was very nervous and run down, was short of breath, and had smothering feelings, and was sorry to see night coming as I could not lie down or go to sleep."

I was advised to use Milburn's Heart and Nerve Pills. I took seven boxes and am now completely relieved. I sleep fine all night, and have gained in weight."

Price 50c a box

Sold at all drug and general stores, or mailed direct on receipt of price by The T. Milburn Co., Ltd., Toronto, Ont.

## Making Better Use Of Sunlight On Farms

### New British Glass Substitute For Window Lighting Is Brought To Farmers

During the past fifteen years there has been much scientific studying of sun-rays and their effect on human beings and animals. Ultra-violet rays particularly have been studied. Even the scientists themselves are unaware exactly how ultra-violet rays affect growth, health, and development in both vegetables and animals. They are, however, known to be largely responsible for all three. After exhaustive researches, means have been found not only to produce them artificially, but to facilitate their entry in a natural state into ordinary buildings by using specially prepared material of low cost for window lighting.

It is probable that this is one of the greatest boons conferred on farmers, poultrymen, market gardeners, and smallholders by scientists for some time. The specially prepared material referred to surpasses ordinary window glass in that it will permit the passage of ultra-violet rays. Glass will not do so. Thus, since it is flexible and almost indestructible, it offers immense possibilities for the lighting of livestock sheds, chick and laying pens for poultry, hot and cold frames in the vegetable and flower garden and special covers for raising young plants in the open much ahead of the usual time.

The advantages of using a material which will transmit ultra-violet rays are not, therefore, they have been proved to be profitable in actual tests. Take poultry for example.

Tests carried out both in this country and England have shown that chicks can be raised earlier in the year in brooders which are lighted with the new material and that, in winter months adult birds housed behind it lay more eggs.

Another test made in England with a flexible glass substitute called "WINDOLITE" which has now been made available in Canada, showed that a flock of 30 hens behind ordinary window glass averaged 39.20 eggs per hen for the six months from May to December. Another flock behind the glass substitute averaged 76.20 eggs per hen for the same months. These figures are, in themselves, conclusive.

As far as chicks are concerned, there is decidedly less leg weakness and the usual chicken mortality in brooders and in the first six months.

Livestock buildings and barns lighted with this material should be healthier for animals. One eminent British medical authority states his belief that tuberculosis in cattle is largely due to animals being deprived of ultra-violet rays in dark sheds in winter.

In the garden, berry crops, lettuce and all other small plants can be brought to maturity a fortnight earlier, and have been found to be bigger and of better flavor if grown under covers made of this material.

Another factor in favor of using the new glass substitutes is the extreme cheapness, strength and handleability.

The new British glass substitute for window lighting actually costs less per square foot than ordinary window glass; is unbreakable, except by extreme violence; retains its translucency and ability to pass ultra-violet rays indefinitely and is unaffected by severe climates—yet its weight is less than one fourteenth that of ordinary glass.

Persian Balm—there is nothing like it for creating and preserving a lovely complexion. Cooling, caring, it soothes and dispels all roughness or chafe caused by weather conditions. Dainty, fragrant, it adds exquisite charm to the most finished appearance. Dainty women inevitably choose Persian Balm. A velvety smooth lotion, it makes the skin rose-leaf in texture. Recommended also for the treatment of chafed hands. Truly a peerless toilet requisite for every woman.

### Manitoba-Ontario Highway

The trans-Canada Highway east from Whittemouth, Man., to the Ontario boundary has been completed and formal opening of the 45 mile stretch to Kenora will take place with appropriate ceremonies on Dominion Day, July 1, under the auspices of the Manitoba and Ontario governments.

Douglas' Egyptian Liniment is without a rival. Stops bleeding instantly. Cauterizes wounds and prevents blood poisoning.

W. N. U. 1938

## Cuban Earthquake Recorded At Ottawa

### Delicate Seismographs At Ottawa Observatory Register Ostrubance

The earthquake at Santiago, Cuba, on February 8, 1932, was well recorded by the seismographs at the Dominion Observatory, Department of the Interior, Ottawa. By means of the seismographs the distance to the epicenter was found to be 2,760 kilometers, or 1,700 miles, and the time at the origin 1-15-07 a.m., Eastern Standard Time. The maximum ground displacement at Ottawa was about one-hundredth of an inch. According to press reports the damage in the city of Santiago was estimated at \$10,000,000. Nine persons were killed and the casualty list was about 300.

## Tells Dyspeptics What To Eat

### Strict Diets Often Unnecessary

It is a well known fact that some foods have a strong tendency to produce excessive stomach acidity and consequent indigestion. By omitting from the diet those foods that have this tendency, dyspeptics can find relief. Nine times in ten, however, indigestion is due to the stomach's inability to digest the food, and the premature squeezing of food in the stomach. To cope with this condition, and to prevent the extra acid from being secreted, it is better to eat foods that are easy to digest and which they like than to eat such as each trouble. A few thousands of people do this daily by merely taking after every meal a little Bismarck Magnesia, which can be had at any good drug store. It is a natural food ferment, Bismarck Magnesia instantly neutralizes stomach acids, stops food fermentation and meals digest as naturally and peacefully as in the stomach of a healthy child. Stomach comfort means a lot and folk who like good living to enjoy them both by making Bismarck Magnesia their daily after-dinner protection.

## Riding Mountain Park Golf Course

Riding Mountain National Park, Manitoba, now has a nine-hole golf course, which has been brought up to good playing condition. It was very popular during the past summer with both residents and transients in the park. An additional nine holes will be added in the near future.

The indications of worms are restlessness, grinding of the teeth, picking of the nose, extreme peevishness, often convulsions. Under these conditions one of the best remedies that can be got is Miller's Worm Powder. They will attack the worms as soon as administered and they pass away in the evacuations. The little sufferer will be immediately eased and a return of the attack will not be likely.

A tick town is any town, and the bigger the town the bigger the ticks contained in it.

Savings bank depositors in Austria are reported to be withdrawing their money to hoard it.

## "I'M going, anyway"

The modern Miss needs no "time out" for the time of month.

If you've ever taken Aspirin for a headache, you know how soon the pain subsides. It is just as effective in the relief of those pains peculiar to women!

Don't dedicate certain days of every month to suffering. It's old-fashioned. It's unnecessary. Aspirin will always enable you to carry-on in comfort. Take enough to assure your complete comfort. If it is genuine Aspirin it cannot possibly hurt you. Aspirin tablets do not depress the heart. They do not upset the stomach. They do nothing but stop the pain.

Headaches come at inconvenient times. So do colds. But a little Aspirin will always save the day. A throat so sore that you can hardly swallow is made comfortable with one good gargle made from these tablets. Neuralgia. Neuritis. Rheumatism. Pains that once kept

people home are forgotten half an hour after taking a few of these remarkable tablets. So are the little nagging aches that bring fatigue and "nerves" by day, or a sleepless night. Genuine Aspirin tablets cost so very little after all, that it doesn't pay to experiment with imitations!

## C. N. R. Efficiency

### Impressive Economy Record Established For Year 1931

Figures upon the operation of the Canadian National Railways for the year 1931 indicate that an impressive economy record was established in the face of heavily declining revenue. The operating revenue for the year reached \$177,273,700, as compared with \$221,770,445 for the preceding year, a decrease of about 20 per cent. Net operating expenses were \$169,688,000 as against \$195,259,507 for 1930, a decrease of 13 per cent. The system, therefore, exclusive of the lines operating under the Maritime Freight Rates Act, will show an operating surplus of about \$7,585,700 for 1931. This, of course, is a very slight help toward paying the enormous burden of interest on capital investment, but it is at least an operating profit.

The really encouraging thing about the report from Montreal, however, is that while freight traffic revenue dropped about 16 per cent, operations were so arranged that the gross tonnage carried on each freight train operated was maintained and slightly increased. Speed of operation was increased and fuel consumption decreased. Passenger train service mileage operated was 25 per cent in December, 1931, than in December, 1930, and 29 per cent less than in December, 1928, but locomotives were kept up to the usual average, and "on time" performance for the year set a new high record.

These figures indicate that the efficiency of the system is being improved in the time of adversity, and with an increase in freight and passenger traffic, such as may be expected by a gradual return to normal conditions, the relation of operating net revenue to overhead cost should be greatly improved.—D. P. C. in The Border Cities Star.

Uruguay expects bumper crops this season.

## Says Garnet Wheat Should Be Graded Separately In Order To Command A Better Price

77 Garnet wheat was graded separately, thus allowing millers to make their own blends, it would have a better chance of commanding a premium in the market than it has at present. This variety is at the moment graded as No. 2 Northern.

Such was the opinion of E. B. Ramsay, chief of the board of grain commissioners, expressed to the House of Commons Committee on Agriculture.

Last October the western grain standards board passed a resolution recommending that separate grades be erected for Garnet. Parliament, however, requested that this action be deferred for the present year, so that the grades will not be disturbed for another 12 months at least.

The chief antagonism against Garnet came from the Canadian millers, Mr. Ramsay told the committee. Their prejudice was due to the yellowish tinge of the flour and not to any inferiority in qualities. Foreign millers had found it satisfactory. Also, Canadian millers did not wish to buy a No. 2 Northern, in which grade Garnet had been put. Asked by W. R. Motherwell (Liberal, Melville), if the real reason for this antagonism might not be that the Canadian millers did not want to incur the expense that might be entailed in adjusting their machinery to grind Garnet, Mr. Ramsay believed this to be a factor.

Of 276,000,000 bushels of wheat produced last year Garnet totalled 45,000,000, thus indicating the popularity of this variety in the west.

Mr. Ramsay urged that blending Garnet with other varieties should be scientific and not haphazard. The high quality of Canadian wheat must be maintained, for the Canadian inspection certificate was the only one accepted in England at its face value.

He thought that if foreign importers wanted Garnet, they should know they were getting that variety. At present, they did not know what they were getting inasmuch as shipments were made only on the basis of No. 2 Northern. These might contain 10 per cent. Garnet, or 50 per cent.

### New Gold Mines

Rich Areas Are Reported In Northern Manitoba

New gold mines will be discovered and developed in Manitoba, predicted J. P. Wright, of the Geological Survey, in a paper delivered before the annual convention of the Canadian Institute of Mining and Metallurgy in session in Montreal.

Dr. Wright, who has devoted a great deal of his time in recent years to examination of mineral areas in Manitoba, referred particularly to the areas about Island Gods and Oxford Lakes as new ground offering interesting possibilities to the prospector. These areas, formerly inaccessible, can now be reached by airplane, he stated, and have already yielded some promising prospects which he described in some detail.

Practical suggestions and instruction to the prospector were contained in Dr. Wright's paper calculated to direct his efforts into the most productive channels.

Present evidence, concluded Dr. Wright, points towards interesting possibilities in the neighborhood of the three lakes mentioned. They are located about 100 miles east of the northern end of Lake Winnipeg.

"Can you lend me five marks quickly?"  
"No, nor slowly either."—Jugend, Munich.

W. N. U. 1938

### The Wheat Bonus

Over \$11,000,000 Distributed At a Cost Of \$107,000

The cost of administering the wheat bonus of five cents a bushel last year was \$107,000. H. H. Stevens, Minister of Trade and Commerce, told the House of Commons. In committee of supply the House was considering an estimate of \$2,400,000 for the Canada Grain Act. The appropriation represented a reduction of \$31,000 from the sum voted last year.

More than 3,000,000 cheques had to be mailed out to the farmers receiving the bounty, he said. The bonus itself was more than \$11,000,000 last year.

The bonus was administered by the Board of Grain Commissioners, and the \$107,000, taken up with administration costs, represented one per cent of the moneys applied.

WHEN ONE'S BUDGET IS LIMITED! IT PLAYS A DOUBLE ROLE!

You can wear this fascinatingly lovely dress for Sunday nights or afternoons.

It has its own little jacket! See the miniature figure!

The jacket has a peplum hip trim and exceedingly attractive sleeves. It's youthfully smart in black crepe silk. The deep bodice yoke that terminates in the fashionable caplet back, is of lace.

And isn't the skirt tricky with its crossed diagonal through the hips? Style No. 718 is designed in sizes 14, 16, 18, 20 years, 36, 38 and 40 inches bust. Size 16 requires 2 1/2 yards of 39-inch material with 1/4 yard of 35-inch all-over lace. The separate jacket takes 2 1/4 yards of 39-inch material.

Printed crepe silk with the bodice of plain toning crepe is chic.

Price of pattern 25 cents in stamps or coin (coin is preferred). Wrap coin carefully.

### Finances Of Canada

Government Ended Year With Cash Balance Of \$55,000,000

Ordinary expenditures in 1937-38 were \$19,000,000 less than estimated, totalling \$378,700,000.

Ordinary revenues, greatly reduced by reason of lower yield from taxation, were \$327,700,000.

Deficit on ordinary account, 1937-38, \$51,000,000.

Expenditures not provided from income—Special (net), including unemployment and farm relief, \$46,000,000; capital, \$16,900,000; loans (non-active), \$3,300,000—resulting increase of debt, \$119,500,000.

Expenditures on unemployment and farm relief, 1937-38, \$38,250,000; wheat bonus, \$11,000,000.

Government ended year with cash balance of \$53,000,000.

Estimated expenditure, ordinary and capital, in 1937-38, \$379,500,000, a reduction from the previous year of \$29,400,000 after absorbing an increase of \$12,700,000 in interest on public debt.

Controllable expenditures of the government on the usual services have under the estimates for 1937-38, been reduced \$25,800,000, or 20 per cent. from the previous year.

Revenues under existing taxation are estimated at \$319,000,000, and ordinary expenditures, \$36,900,000.

New taxation will, it is estimated, yield \$55,000,000, balancing current account and leaving a surplus of \$4,300,000.

Provision is not fully made from revenues for capital expenditures or for unemployment relief or railway deficit, although any improvement in business would be immediately reflected in increased yield from taxation and would correspondingly improve budget position on all counts.

### May Retire From Public Life

Stated That Lloyd George Will Devote His Time To Writing and Farming

David Lloyd George, one of Britain's greatest political figures, was reported recently to have decided on his virtual retirement from the House of Commons. Only events of outstanding importance, said those close to him, would bring the Welsh Liberal and war time prime minister back to the scene of his past triumphs. There was nothing on the political horizon now, it was added, that could be considered in that category.

Lloyd George, who, in his galvanic person during the war symbolized for many the British "will to win," whose oratory swayed the benches of Commons as had that of few men, will devote himself in the future to writing and farming, his friends said.

While continuing to feel that where Lloyd George is concerned the unexpected might always happen, commentators recently have pointed out that in the strict logic of events it was hard to see just what his place could be in the present political scheme.

### Will Exhibit "Flying Scot"

Those who do not expect to travel between London and Edinburgh next May may see in Chicago the "Flying Scot," fastest train in the world. The "Flying Scot" will be transported to the United States in 1938 with its full crew of British trainmen, complete with coaches, sleepers and dining cars and motive power, to be shown at Chicago's Century of Progress Exposition.

## No Other Boundary In World Of Such Length As That Which Divides Canada and United States

### Iodized Salt

Research Council Advocates Iodine Survey Of Food and Water Supplies

In the opinion of the Associate Committee on Iodized Salt, an advisory body of Canadian experts created by the National Research Council at the suggestion of the Canadian Medical Association and the Canadian Chemical Association, the widespread sale of endocrine preparations containing thyroid is inadvisable from the standpoint of public health, except under a doctor's prescription, and the sale of these preparations for the treatment of goitre and obesity cases should not be permitted.

The method of administering iodine in table salt is satisfactory but the proportion of iodine now used in iodized salt in Canada, one part in 10,000, is unnecessarily high. One part of sodium or potassium iodide in 200,000 would be sufficient and one part in 100,000 would be satisfactory as a maximum.

The committee suggests that if as iodine survey of food and water supplies in Canada is to be carried out, it should be undertaken by a national body such as the National Research Council. Consultation with the manufacturers of iodized salt by the National Research Council and the organization of research in association with the manufacturers was recommended.

A survey indicated that the sale in Canada of iodized salt is increasing, especially in the areas where goitre is prevalent. In these districts more iodized salt than free running salt is sold. According to the available statistics (not regarded by the committee as complete), goitre is practically absent in Nova Scotia and New Brunswick and quite uncommon in Quebec. In Ontario its prevalence is quite noticeable at Kingston, increases about the Muskoka district and in the vicinity of Windsor, still increases from North Bay to Coburn and from Sudbury to Salt Ste. Marie, then diminishes again at Port Arthur and Fort William. It has also been found to be prevalent in Saskatchewan in the vicinity of Prince Albert, while in Alberta and British Columbia it diminishes again, particularly at the coast. The committee has expressed its interest in the iodine survey of Alberta carried on by Dr. O. J. Walker, of the University of Alberta.

### The Thing To Value

Contribution Men Make For Betterment Of The World

This is an age and era when people are prone to collect money, and they are valued as they amass wealth. But we can see a change coming over the world. People are beginning to realize that it is not the wealth a man accumulates that is the thing to value, but the contribution made for the betterment of the world. People are beginning to realize that work of any kind for the public service and advancement, making the community better, is the real achievement.—General Smuts.

Many references at gatherings in Canada and the United States are made to the "4,000 miles of undefended boundary" between the two countries. As a matter of fact the boundary is 5,500 miles in length, of which 3,100 miles are land boundary and 2,400 miles are water boundary. The land boundary is marked by 5,483 monuments and a vista cut through the woods in all forest covered areas; the water boundary is identified by 2,536 reference marks.

The monuments used in the several sections of the boundary are of several types and of different materials. In the mountains of Alaska and British Columbia hollow monuments of aluminum bronze are used; on the more accessible parts of the land boundary, the monuments are of cast iron, granite and concrete. Along the larger waterways the reference monuments are chiefly of concrete, and along the narrower waterways small solid aluminum bronze marks serve to mark the international boundary. Where necessary, monuments of a special type are used, for example, the Gulf of Georgia, the first course of the water boundary, which is eleven miles in length, is ranged by steel towers carrying lights. The offshore tower in this case is sixty feet high.

Partly due to physical characteristics, partly for historical reasons, and partly for convenience, the international boundary has been divided into eight sections. These sections are: (1) The Atlantic Ocean to the source of the St. Croix River; (2) the source of the St. Croix River to the St. Lawrence River; (3) the St. Lawrence River and Great Lakes; (4) Lake Superior to Lake of the Woods; (5) the 49th parallel from Lake of the Woods to the Gulf of Georgia; (6) the Gulf of Georgia and Straits of Haro and Juan de Fuca to the Pacific Ocean; (7) Dixon Entrance to Mount St. Elias; (8) 141st Meridian from Mount St. Elias to the Arctic Ocean.

The boundary between Canada and the United States comes under the jurisdiction and administration of the International Boundary Commission. This Commission consists of two Commissioners, one representing Canada and one the United States. They are guided by five international treaties.

There is no other boundary in the world of such length on which no gun or armament is to be found.

### Alberta's Income Tax

Province Expects To Derive Over Million In Revenue

Even office boys and clerks earning \$15 a week will contribute to the treasury of the Alberta Government through the income tax which is expected to net \$1,374,000 in revenue. Returns on 1931 incomes must be made by May.

Every man earning \$15 a week who is unmarried will pay a \$3 filing fee plus a 30-cent tax. Married persons with no dependents will pay the \$3 base tax and 60 cents income tax on income of \$30 a week.

Exemptions for single persons are \$750 and for married persons \$1,500.

Only single persons earning \$30 a week or more will be liable under both the Alberta and Dominion Income Taxes, with those earning that amount paying \$11.10 to the province and \$7.20 to the Dominion. Married persons must earn \$50 a week or more to be liable under both taxes, the amount of the taxes on that salary being \$14 to the province and \$4 to the Dominion.

"Your pulse is perfectly regular." "Whereas, You are holding my wrist watch."—Die Muskete, Vienna.

## SHE WORRIED ABOUT HER WEIGHT

"I started taking Kruschen Salts a month ago. I have lost 3 pounds in weight, and I feel as if I have lost 20 lbs. I am full of vigor, whereas before I was worried about my condition, as I was listless and worried over little things. But I am thankful to say that, were my troubles doubled, they would not worry me today—thanks to Kruschen."—Miss V. P.

Here's the recipe that banishes fat—take one-half teaspoon Kruschen Salts in a glass of hot water before breakfast.

Be sure and do this every morning, for "It's the daily dose that takes off the fat."—Don't miss a morning. Kruschen daily means that every particle of poisonous waste matter and harmful acids and gases are expelled from the system.

Modify your diet, and take gentle exercise. The stomach, liver, kidneys, and bowels are tuned up, and the pure, fresh blood containing these six salts is carried to every part of the body, and this is followed by "that Kruschen feeling" of energetic health and activity that is reflected in bright eyes, clear skin, cheerful vivacity and charming figure.

## WORLD HAPPENINGS BRIEFLY TOLD

France will take part in the Olympic at Los Angeles.

A resolution favoring shorter working hours for labor has been voted upon favorably by the British Columbia legislature.

Men at The Pas, Man., are seeking rights from Ottawa to fish in the Hudson Bay. They would operate on a commercial basis.

John Fletcher, a notable figure in the early history of telegraph development in British Columbia, died recently at Palo Alto, Cal.

Guglielmo Marconi has developed a completely successful ultra short wave radio telephone capable of receiving and sending.

Saskatchewan's coal output for February of 1938, 435 tons is 9.1 per cent. advance over the same period a year ago.

A trading loss of £646,606 for the past year, including provision for its liability in the losses of subsidiary companies, was reported by the Hudson's Bay Company.

Rumors prevail at Seward, Alaska, that Jack McCord, a promoter, has discovered platinum bearing sands on Chirikof Island and was planning to start immediate development of a mine.

Hugh S. Gibson, the United States delegate, proposed to the world disarmament conference the abolition of offensive weapons including tanks, heavy mobile guns and gases as the key to the disarmament problem.

When Andrew W. Mellon arrived in London, England, to take up his duties as United States ambassador, he was given an ovation by a considerable crowd at the railway station.

Fresh Supplies In Demand. Wherever Dr. Thomas' Electric Oil has been introduced increased supplies have been ordered, showing that wherever it goes this excellent Oil increases its power on the people. No matter in what latitude it may be found its potency is never impaired. It is put up in most portable shape in bottles and can be carried without fear of breakage.

### Completes Winter Work

"The flying box car" of the north country, JR-52, a huge Junkers airplane, flown to Winnipeg from Montreal last December, arrived back from Norway House, having completed freight operations for the winter. She will remain in Winnipeg until after the spring break-up, when she will be fitted with pontoons and sent back to her summer work.

## Billous For Days At Time Until She Took Vegetable Pills

Graciously, Mrs. C. writes: "The first dose of your wonderful Carter's Little Liver Pills gave me great relief after every medicine I tried failed." Because they are PURELY VEGETABLE, a gentle, effective tonic to both liver and bowels, Dr. Carter's Little Liver Pills are equally good for constipation, acidity, headache, poor complexion and indigestion. 25c. & 75c. red signs, everywhere. Ask for Carter's by NAME.

W. N. U. 1938

## ALLIED AND ENEMY FLYERS FRATERNIZE

Allied and enemy flyers and observers who fought in the clouds to the accompaniment of whining struts and Lewis gunfire, gathered recently in the Royal Alexandra Hotel, Winnipeg, to attend a banquet sponsored by the Aviation League of Manitoba. More than a hundred Manitoba wartime pilots and observers from both sides attended the reunion.

In this picture, Karl Neumann, left, who claims membership with the great Baron Richthofen's famous "Flying Circus," is seen recounting a war exploit to an interested audience of Manitoban pilots.

This picture shows a portion of the gathering relating wartime exploits as the cocktail tray goes round.

### Tax On Insurance

Imposition Of One Per Cent. Of Premiums Other Than Life, Marine and Farm Mutual

Imposition of a tax of one per cent. of net premiums of insurance companies authorized to transact business in any province of Canada, other than life, marine and farm mutual was announced in the budget speech of E. N. Rhodes, Minister of Finance, in the House of Commons.

"The tax upon insurance premiums passed at the last session was not put into effect by proclamation as provided by the statute, owing to difficulties over the jurisdiction of the Dominion and provinces in the matter of insurance," Mr. Rhodes remarked.

"It is now proposed, under the Special War Revenue Act, to impose a tax of 1 per cent. of net premiums of insurance companies authorized to transact business in Canada or in any province of Canada, other than life, marine and farm mutual. This tax was in force from 1915 to 1929. British and foreign companies, not so authorized, but maintaining deposits with the Dominion, will also be assessed 1 per cent. of net premiums received in Canada. Canadian policyholders who insure their property in Canada with companies other than those mentioned above, will be charged a tax of 15 per cent. of the gross premiums payable on such insurance."

### Platinum Will Evaporate

Platinum is caused to evaporate like water by a discovery announced from the California Institute of Technology. This precious vapor, probably the world's highest-priced metal, condenses into unimaginably thin films upon a wide variety of materials. It coats them virtually permanently.

### Ask For Protection

Of Livestock Industry

Dominion Minister of Agriculture Requested To Call Conference

A meeting of the Saskatchewan Livestock Board held in Regina passed a resolution requesting the Dominion Minister of Agriculture to call a conference of all livestock interests in Canada before the Imperial Conference in Ottawa in July to draft a policy for the protection of the livestock industry to be presented at the conference.

The meeting also endorsed a similar request from the Western Canada Livestock Union. It was intimated at the meeting that in the case of the Dominion declining these requests the Livestock Union might call an independent meeting and, in case this was done, the Livestock Board requested that the six presidents of the Saskatchewan Associations, horse, cattle, sheep, swine, poultry and ranchers, be invited to attend.

By twisting the handle of a new hairbrush either short or long bristles are extended for use.

One of the newest uses that farmers have found for electricity is to heat hotbeds.

FOR HEADACHE, BILIOUSNESS, CONSTIPATION, INDIGESTION, KIDNEYS, LIVER, BOWELS.

## SUNDAY SCHOOL LESSON

APRIL 24

### ABRAHAM'S GENEROSITY TO LOT

Golden Text: "In honor preferring one another."—Romans 12:10.

Lesson: Genesis 13.

Devotional Reading: Psalm 133.

### Explanations and Comments

The Prohem, verses 5-7.—The land of Canaan was not fertile enough to support such large flocks and herds as both Abraham and Lot had, especially after there had been a severe famine, Genesis 12:10. Their herdsmen were continually quarreling over the pastures. Not only was there not enough pasture for them, but they did not have the whole land to themselves—the Canaanites and the Perizzites were there too. Some scholars think that the Perizzites were the original inhabitants who had been conquered by the Canaanites.

The Peace Measure, verses 8, 9.—Abraham would have no strife between himself and Lot, nor between their herdsmen. The unoccupied country was before them, he told Lot: "He was more intent on peace than on plenty; he preferred fraternal fellowship to selfish increase," and so he bade Lot choose the side he wanted and he himself would take the other.

The Choice, verses 10-13.—They had a wide prospect from a hill above Bethel. On the one side of them were the rather barren hills of Judea, from two thousand to four thousand feet high. On the other side was a rich plain ten or twelve miles broad through which the Jordan flowed. Lot chose had made of the greatness of Abraham's. The well-watered fertile plain on the east, which was "as the garden of the Lord" was his choice. The plain was filled with cities whose inhabitants were a proverb of lawless wickedness? He would crowd pitch his tent "towards Sodom"; but dire results followed.

"Lot was a man of the world, sharp as a needle, having an eye to the main chance. He boasted to himself that he always 'took in the whole situation.' But he had very imperfect sight. He saw all the well-watered plain of Jordan, but he overlooked the city of Sodom, and its exceedingly wicked and sinful peoples. And the thing he overlooked was the biggest thing in the outlook! It was to prove his undoing.—J. H. Jowett.

The Compensation, verses 14-18.—"What lay behind Abraham's magnanimity? More than mere kindness to a younger man. More, too, than a mild superior to material values. He had been called of God for a great purpose, and that certainly was something greater than accumulation of wealth. There was an inward fidelity to higher ends which made him treat the question of a better or worse grazing-ground as a mere detail of life. He was content to leave his destiny and the whole question of 'less' or 'more' in other hands."

"This is what was recognized by the gracious revelation, made to him when his generosity had been accepted without gratitude. Former promises become more precise and more detailed. 'All the land which thou seest, to thee will I give it and to thy seed for ever.' He is bidden to go 'through the land in the length of its breadth of it' in the proud consciousness of possession. If he has sacrificed a part of it to his kinsman, there will be no impoverishment. The promise of an extended promise included more than territory. There was a specific assurance concerning the future of his descendants. 'They would be as numerous as the dust of the earth.' The seed would be fully possessed. 'Thy seed shall possess the earth.' Beyond that counting—that is the assurance. God is not to be outdone in generosity by his servant. If Abraham gives generously, God gives tenfold more.

### Run Running Case

Nova Scotian Vessel Is Forfeited To United States Government

The Nova Scotian vessel, "Josephine K," which was seized off Annapolis Light in January, 1931, has been forfeited to the United States Government with the consent of her owners. It was announced in New York.

United States Attorney George Z. Medele disclosed the action which, he said, was agreed to by counsel for the Liverpool Shipping Company, owners of the boat. The wines and liquors found on board will be destroyed.

Seizure of the boat caused international complications because her skipper, William P. Cluett, was killed in the coastguard chase. An inquiry, however, resulted in the ruling that the coastguard acted within regulations.

Better In Canada. "Conditions are better in Canada because Canadians were not so madly excited as Americans by post-war Canadian author. There is a stability among Canadians that is probably due to the Scotch strain among them," he said.

## Build Up Health With Spring Tonic

The fashion of taking a Spring tonic is based on sound medical grounds. Winter has thinned and devalued the blood stream so that it isn't carrying enough oxygen. That is the reason for the listless, languid, easily-tired-out condition so prevalent at this season.

What is needed is a tonic—one that will build new blood and restore and purify the blood stream, and thus enable it to carry the energizing oxygen that quickly revitalizes the whole system. Thousands have proven that Dr. Williams' Pink Pills are the ideal tonic for this purpose.

Mrs. A. Merritt of Welland says: "Again last Spring I became ill. I could not do my work; was pale, weak, and tired all the time. I took Dr. Williams' Pink Pills and they soon made me strong and happy again." Try them and experience for yourself the new strength and vigor they will bring you. At your druggist's in the new glass container. 50c a package.

### Community Progress Competitions

Gratifying Results Attend Movement Sponsored By Canadian National Railways

The closing entry date for the Canadian National Railways Community Progress Competitions for 1932 has been set for April 30th, by Dr. W. J. Black, Montreal, director of the Department of Colonization and Agriculture for the railway.

In commenting on the results of the two years competitions, which were most gratifying, Dr. Black said an advancement quite substantial in character has been registered in the extent of the public interest being taken by many communities in their local schools, and the education, both primary and higher, of their young people. In agriculture a drive has been instituted for livestock improvement, unprofitable breeding stock has been disposed of, finer soil cultivation has been adopted, good seed has been recognized as more important, the physical conditions of farms, dwellings and buildings generally have been improved, and rural highways have been built or reconditioned.

In Public Health also interest has been stimulated. The prevention and control of infectious diseases has been given more attention, and in some cases municipal doctors have been appointed. Boys' and girls' clubs have been organized where few, if any, previously existed. Agricultural societies, farmers' and women's associations, institutes or clubs have been brought into being or have been advanced. Closer co-operation in community relations has been encouraged, and influences for the general betterment have been promoted, including due consideration for observance of law and order.

In the farm home the handicrafts have been given a premium and the coming generation of workers has been encouraged to preserve and perpetuate the best that has been brought to this country from other lands.

The 1931 prize money totalling \$1,750 for each of the three Western Provinces is being spent on worthwhile projects such as purchase or renting of pure bred stallions and bulls; purchasing seed-clearing plant; organizing boys' and girls' clubs covering seed growing, poultry, garden, calf, and swine; beautifying school grounds and purchase of playground equipment and school libraries; establishment of fairgrounds, sewing clubs, and assistance to other community efforts.

Altogether the results so far have been a fine achievement, demonstrating the possibilities of a united objective toward the great goal of Canadian Citizenship.

"Will you give ten cents to help the Old Ladies' Home?" "What! Are they out again?"

## CHANGE URGED IN U. S. RADIO BROADCASTING

Ottawa, Ont.—The outstanding educational associations of the United States have passed resolutions urging a drastic change in the system of radio broadcasting in that country, the parliamentary committee on radio broadcasting was told by Dr. J. E. Morgan of Washington, D.C.

Dr. Morgan has been for ten years editor of the Journal of the National Education Association, and represented the national committee on education by radio. The opinion was expressed in his brief that certain radio channels should be assigned to the educational authorities and that they should be owned and operated at the public expense without recourse to commercial advertising.

The federal radio commission of five members, appointed by act of congress in 1927, had proved a "weak organization" so far and had not made full use of its powers, the witness said. Evidence that the United States congress was alive to the unsatisfactory condition of radio in that country was seen in the fact that a commission similar to that studying the Canadian situation was now sitting in the United States by unanimous order of the United States senate.

The radio congress had decided, must be conducted in the "public interest, necessity and convenience," but whenever commercial interests made a bid for radio channels or hours held by educational organizations, the latter gave up their privileges unless they wished to enter into expensive litigation, Dr. Morgan said.

A powerful "monopolistic" organization in the United States was spending a million dollars a year in propaganda to keep control of radio in the hands of private interests, the witness declared.

## Many Countries Will Exhibit

Saskatchewan Farmers Urged To Take Interest in Grain Show  
Regina, Sask., July 4. A. Mooney and E. B. Gass, of this city, addressed a meeting of the Board of Trade at Yorkton in an endeavor to stimulate interest and enthusiasm in the World's Grain Exhibition and Conference to be held in Regina in 1933.

Mr. Mooney told the gathering that more than 30 countries have already signified their intention of entering exhibits at the World's Grain Exhibition and that before long he expected the number would be at least fifty. "We have one of the best growing grain areas here," Mr. Mooney said, "and it will be a shame if we do not put forth our best efforts to entice and encourage the farmers of the district to enter exhibits at the World's Grain Exhibition."

Mr. Gass outlined ways and means of stimulating interest and enthusiasm among the residents of the small towns and villages and the farmers in the Yorkton district and stated that Saskatchewan should enter at least 10,000 exhibits in the World's Grain Exhibition.

## For Peaceful Solution

Sees Signs Of Co-Operation Between Capital and Labor

Vancouver, B.C.—"I look for the destruction of the capitalistic system through co-operation rather than revolution," declared Dr. S. D. Chown, former general superintendent of the Methodist Church in Canada, addressing the Vancouver Presbytery of the United Church here.

"I rejoice in the signs on every hand of co-operation between owners and operatives, the selling of company stock to employees and other like movements," he added.

## Favors War Weapon Cut

Geneva, Switzerland.—Foreign Minister Dino Grandi of Italy told the World Disarmament Conference Italy welcomed the United States proposal for abolition of tanks, heavy artillery and gas warfare. He added to the plan a proposal to abolish battleships, aeroplane carriers and bombing aeroplanes.

W. N. U. 1938

## Must Protect Bay Route

Many Misrepresentations Claimed In  
Regard To Churchill Outlet

Ottawa, Ont.—The Hudson Bay route add the Port of Churchill are the butt of many misrepresentations in both English and Canadian newspapers, E. M. Stitt (Cons., Nelson), told the House of Commons. The member from Nelson charged that if the underwriters had their way they would make it impossible for business to flow over the Hudson Bay route.

Hudson Bay and Straits were now equipped with all necessary aids to navigation and ready for service. Parliament must see that nothing was done to jeopardize their future development.

With regard to the railway into Churchill, he said shippers were ready to use it, but so far no schedule of freight rates had yet been published. He urged that the government direct the attention of the railway's management to this matter.

## Naturalization Papers Needed

C.N.R. Workers At Winnipeg Re-  
quired To Produce Citizenship

Winnipeg, Manitoba.—Foreign-born workers in the Canadian National Railways shops at Fort Rouge and Transcona are required to prove their citizenship. Their naturalization papers were inspected by a committee headed by A. E. Moore, Dominion chairman of the Canadian Legion, who said the investigation is the result of a new basis for the proposed lay-off of men by which all employees who cannot prove their Canadian citizenship will be dismissed regardless of seniority.

Mr. Moore, said the basis had been arranged at a conference he had a few days ago with Sir Henry Thornton, president of Canadian National Railways, and R. J. Manion, Minister of Railways.

## Ulster Is Loyal

Northern Ireland To Remain True To  
The British Empire

Enniskillen, Northern Ireland.—Viscount Craigavon, Prime Minister of Northern Ireland, told a Unionist meeting that, whatever happened in the controversy between Great Britain and the Irish Free State, nothing would make his government "flinch in upholding the flag which so long has flown over Ulster, the United Kingdom, and the rest of the Empire."

A resolution expressing unshakable loyalty to the King and a determination at all cost to remain within Great Britain and the empire was adopted by the meeting. (The Unionist party is the government party in Ulster.)

## Benefit To Canada

Estimated \$250,776,000 Brought In  
By Tourists Last Year

Ottawa, Ont.—Total expenditures of tourists in Canada during 1931 are estimated by the Dominion Bureau of Statistics at \$250,776,000. This is a decrease of \$29,000,000 from the estimated expenditures of the previous year. Entering Canada via ocean ports, tourists spent \$12,018,000; from the United States by motor car, \$188,129,000; and from that country by rail, \$50,629,000.

An against this, Canadians touring abroad spent \$74,452,000 in other countries, a decrease of approximately \$25,000,000 from the figure in 1930.

## Discount On Debts

Toronto, Ont.—To enable farmers to secure equipment much needed for the new season's operations and to aid in liquidation of their present indebtedness, a plan was announced by Massey-Harris Implement Company involving a 10 per cent. discount on all existing obligations to the company and on all new purchases of implements to the extent of payments prior to the end of next November.

## Will Receive Degree

Lennoxville, Que.—Lord Beasborough will visit Bishop's University, Lennoxville, on the occasion of the annual convocation, which takes place on Thursday, June 16. The Governor-General will receive the degree of Doctor of Civil Law, Honoris Causa, which will be conferred by the Chancellor, F. E. Meredith.

## PROMINENT VISITOR

Combining business with pleasure, Gilbert Carmichael, official of Scotland Yard, famous British police organization, is shown as he arrived on these shores. He denied rumors that he is in the United States to investigate the Lindbergh kidnapping and said he will make a study of traffic systems in various American cities.

## Sunday Cinemas In England

Bill To Legalize Sunday Picture  
Shows Passes Second Reading

London, Eng.—A bill which would legalize Sunday motion picture shows passed second reading in the House of Commons by a vote of 235 to 217 after prolonged debate.

The decision was left to a free vote of the House, the voting cutting across all party lines. Sabbatarian elements have waged a campaign against the bill and many members received postcards making such promises as one that the Lord would strike them dead if they voted in favor of the measure.

Cineas have been open on Sunday evenings in London and several other cities for many years without legal sanction. They would definitely have to close on Sundays after next October 7, however, unless the bill passed.

## Distribute Flower Seeds

Canadian Horticultural Society To  
Donate Seeds To Saskatchewan

Ottawa, Ont.—Flower seeds, for distribution to residents in southern Saskatchewan, where the drought of last year took toll of crops and flowers, will be collected in the east under the direction of the Canadian Horticultural Council. Women's institutes and horticultural societies in eastern Canada will be asked to make donations of seeds and these will be distributed by the Saskatchewan relief commission, in co-operation with the horticultural council.

F. C. Nunnick, chairman of the "Beautify Canada" campaign, announced distribution plans here.

## THE HIKERS' MYSTERY EXPRESS

A unique stunt was put over by the British Railways during the Easter holidays by running "Mystery" specials for an unknown destination. So well were these mystery trains run that not even the train crew knew where they would stop until a month before their departure. The above picture shows G. W. Holford Knight, K.C., and two other enthusiastic hikers trying to persuade the engineer to let them into the secret.

## Use More Foreign Wheat

Italy To Lighten Restrictions On Fu-  
ture Imports

Rome, Italy.—Restrictions on the use of foreign wheat again were lightened by government decree.

Beginning April 28, millers of northern and central Italy will be allowed to use imported grain for 60 per cent. of their flour, while millers of southern and insular Italy will be permitted to use 85 per cent.

The amount of foreign wheat which could be used in the mixing of flour formerly was 40 per cent. and 60 per cent., respectively, having been gradually raised from 25 per cent. in view of an insufficient production of domestic grain.

Ottawa, Ont.—Growth in Italian production of Canadian wheat is looked forward to here as a result of the increase in the proportion of foreign wheat allowed in the making of flour in Italy. The lightening of restrictions follows the trend of other years when, to encourage consumption of domestic wheat, restrictions are imposed early in the crop season and gradually relaxed as the domestic supply diminishes.

## Resigns Seat In Commons

Member For Royal, N.B., Hands In  
His Resignation

Ottawa, Ont.—George B. Jones, former Conservative Minister of Labor and former member of the New Brunswick legislature, has resigned his seat in the House of Commons for the constituency of Royal, N.B. The resignation with an accompanying letter by Mr. Jones was read in the House by Mr. Speaker Black.

The action was taken by Mr. Jones on learning that a contravention of the House of Commons act had occurred by reason of Jones Bros., Apohaqui, N.B., having supplied medical goods for needy Indians on orders of the Indian medical director. The firm is not operated by Mr. Jones personally. It is an unincorporated firm, and had it been a corporate one, it is understood, the provision of the act would not apply. The amount of goods supplied, it is understood, was small.

## Miners May Strike

Calgary, Alberta.—Alberta coal miners stand firmly against wage reductions, according to results of the vote held by the Mine Workers' Union of Canada to ascertain the men's stand in the event of pay cuts. Returns so far show a great majority in favor of a general strike if operators attempt salary reductions.

## Gives Royal Assent

Winnipeg, Man.—Making his first appearance in the Manitoba legislature this session, Lieutenant-Governor J. D. McGreggor gave royal assent to six bills. His Honor recently took up his duties after a leave of absence occasioned by a severe illness.

## SEEK A LOWER RATE ON GRAIN TO MARITIMES

Ottawa, Ont.—Granting of a rate of 19.34 cents per 100 pounds on grain from the head of the lakes to Saint John, N.B., and Halifax, is urged in a memorial which is being sent to the Dominion Government. Conservative members and senators from the maritimes signed the document.

The memorial supports the appeal of the Halifax harbor commissioners and the transportation commission of the maritime boards of trade for a one cent differential rate on grain from the head of the Great Lakes to Quebec port as compared with Quebec port. The appeal was heard before the cabinet shortly before parliament assembled for the session.

By a decision of the board of railway commissioners, the rate from the head of the Great Lakes to Quebec port was fixed at 18.34 cents per 100 pounds. Maritime bodies asked that a one cent differential rate be put into effect under the Transcontinental Act.

The memorial supports the rate fixed by the railway commission to Quebec port. It further requests that the appeal for a 19.34 cent rate to maritime ports be not referred back to the railway commission. An early decision by the government is asked.

## Aid For Farmers

Advocate Bousling System To En-  
courage Mixed Farming

Ottawa, Ont.—Earl Rowe (Cons., Dufferin-Simcoe), debating the Rhodes budget, pointed to mixed farming as the economic salvation of Canada. It might be necessary to bonus certain products and he suggested two cents for bacon and live beef; one cent for cheese, and three cents a dozen for eggs. This, he said, could be done without a heavy drain on the national exchequer and would revolutionize mixed farming. A plan of this type would encourage exports and stimulate the home market.

The farmers of Canada, proceeded Mr. Rowe, for years have witnessed the coal and iron and steel industries bonused. He believed it was time to take similar action for mixed farming.

The biggest problem in Canada was the rehabilitation of the farmer, said J. L. Brown (Lib., Lisgar). The question now was whether farmers were to be responsible men living on farms, deriving satisfaction out of their work and enjoying reading and other forms of education and entertainment, or whether they were to sink to the position of men engaged solely in grubbing out some kind of living from the soil.

## Disband Hitler Army

German Government To Put An End  
To Political Activities

Berlin, Germany.—The German Government ordered Adolf Hitler to disband his army of 400,000 National Socialist shock troops and put an end to the terrorizing activities for which it held him and his legions responsible.

The sudden blow at the strongest single political organization in the nation came in the form of an emergency decree signed by President Paul von Hindenburg. As soon as it was promulgated, police throughout the country proceeded to enforce it by invading the various Nazi headquarters and seizing materials of war and propaganda.

## Business Advisers

Will Accompany United Kingdom  
Delegation To Imperial Conference

London, Eng.—The suggestion that business advisers should accompany the United Kingdom's delegation to the Imperial Economic Conference at Ottawa, has been welcomed by most Dominion governments. J. H. Thomas, secretary for Dominion Affairs, announced in the House of Commons recently.

Mr. Thomas added he had invited industrial associations to recommend selected advisers.

Japan has ordered 400,000 military coats in Germany, for delivery next summer.

## Truck Loads Are Cut Down.

In an effort to protect the highways of the province from damage from unduly heavy loads during the period in which the frost is coming out of the ground and the roads generally are in a softened condition, the Provincial Highways Dept. has placed restrictions on the weight of loads permitted to be carried by trucks during the period from April 15 to 24; this period may be extended if conditions warrant.

Under the regulations governing highway traffic in the province at present, units with two axles are permitted loads to the maximum of 24,000 lbs., and units with more than 2 axles, or any combination or train consisting of truck with trailer or semi trailer, to the maximum of 30,000 lbs. These loads will now be restricted to half their amounts, under the short term restrictions mentioned above.

In addition, for the same period, the highway from Gainford to Styal, and from Clyde corner to Barrhead, will be closed entirely to truck and bus traffic.

Hon O L McPherson, in announcing these restrictions, stated they were felt necessary to prevent serious damage to the highways during a time when the Spring thaws are in progress.

—From the Office of the Publicity Commissioner, Edmonton.

## Stony Plain and District

At the meeting Thursday evening of members of the Golf Club in the town hall, the secretary read the annual report. On the conclusion of this, the election proceeded, when the 1931 officers were re-elected: F W Yeats Pres., and D E Mayer Secretary. An executive committee was also elected.

A supper will be held in the United church on Sat. April 23d from 5:30 to 7:30, under the auspices of the Ladies' Aid.

Mr D M Bruser of Edmonton was a week-end visitor with Mr Paul Comisarow.

If others failed to satisfy you, see M Mecklenburg at Royal Hotel, Stony Plain, Friday, May 6.

There was a rumor in business circles on Monday that Mr Bert Becker was acquiring a service station on the Highway.

Do you know that the high bridge in glasses is the latest style? See M Mecklenburg at the Royal Hotel, Stony Plain, Friday, May 6th.

## United Church Notes.

We are now able to make definite announcement as to the big Gospel rallies previously announced. These will be held, weather and roads permitting, on:

Sunday, May 1, at Holborn hall.

Sunday, May 8, at Brightbank.

Sunday, May 15, Sand Hill School.

The CHMA broadcasting station will be present with a special orchestra, singers and speakers.

These services are sure to be of great interest, and it is hoped there will be a record attendance at each.

## Calendar

- APRIL—  
22—"Civil Service" at the Moose Hall.  
23—Supper at 5:30 at the United Church.  
26—Lecture at the St. Matthew's School No. 2.  
MAY—  
6—M M Mecklenburg at Stony Plain.  
11—Women's Institute meets.  
21—U F A Local meets.  
24—U F Picnic at Holborn.

## Church Services.

Services in St. Philip's Church next Sunday, 9:30 a.m.  
German Lutheran services will be held in Stony Plain next Sunday at 2:30 p.m.  
United Church service every Sunday Evg. at 7:30.  
Lecture on "Christian Fundamentals" by Pastor Kuring, at St. Matthew Schoolhouse No. 2.

## Sparkie Says.

"I would be great to do business with pleasant, easygoing customers if they pay their bills.  
It's impossible for some people to resist abusing easy credit."

## Spruce Grove News.

Mrs A Sutherland returned on the 14th from Kincaidine, Ont., where she had been out a visit to her brother, Mr Campbell, who has been very ill for some time.

The new Brox general store threw its doors open this week.

Mr Clyde Hyett is now on the temporary staff at the Connolly Mercantile.

Mr Shiplet of Palm Dairies Limited was a business visitor here on Sunday last.

Members of the Young Peoples' Society held another of their interesting bi-monthly meetings last evening, the 20th.

There is no apparent activity with respect to the new service station which was to have been erected here this month. Probably the cornerstone was expressed via Air Mail e.o.d.

Capt. E R Gibson entertained, this week, the Scouts and a delegation from Young Peoples' society to a winner roast at his home on the Highway.

Mr E C McLaughlin is completing his contract to supply seed oats and barley in carload lots; these going for distribution in drought areas.

The Orlimiers' last dance of the season in the Memorial hall attracted the usual centrie from here who attend these events.

Mrs Ferguson Smith was visiting in Edmonton last week for a few days with Mrs George Hunt.

The cream shipments from this district are beginning to assume much larger proportions.

Mr J H McLaughlin, agent for that well-known Elephant Brand Fertilizer, this week unloaded his second carload of this commodity. He has some small lots of this shipment still on hand, which he will dispose of at a reasonable price. See him today.

## What Saith the Exchanges.

"I still love him," declares a Hartford wife who put two bullets thru her husband. It is to be hoped she can be persuaded not to offer any additional proofs of her passion.

A man is to be hanged by Clarkeburg, W. Va., and his wife wants to die first so she can meet him in heaven. She's peaked on a good spot; but it is understood accommodation is only available when arranged in advance.

"Experience" is just another name for the blunders we have made.

Realtors, attention! Anyone anxious to secure a fairly large tract of land will be interested in the announcement that Labrador is for sale.

Analysis of beer in Georgia reveals that among other things samples contained strychnine, arsenic, ammonia, sulphuric acid and nux vomica. One understands now where that saying "Nause your poison, gentls," originated.

## MRS. F. HORN, Butcher.

FRESH MEATS, SMOKED MEATS, HOGS AND CATTLE BOUGHT. OPPOSITE ZILLIOX'S SHOP STONY PLAIN.

## Here and There

Forty British sportsmen will make up five parties which have arranged to fish trout and salmon on the Miramichi River, N.B., during 1932, according to an announcement by the provincial department of information and tourist travel.

Canada shipped more than 5,000,000 pairs of rubber and rubber-soled boots and shoes valued at approximately \$400,000, so more than 80 countries during 1931, according to information given out by the Dominion Department of Trade and Commerce.

Travelling Canadian Pacific across the Dominion from Detroit and visiting Niagara Falls, Toronto, Ottawa, Montreal and Saint John prior to sailing by S.S. Melita for their home countries, eight European Ford Motor dealers were lavishly entertained at all cities they stopped at.

S.S. Montclair, the ship that inaugurated Canadian Pacific ocean passenger service at Halifax this winter after a lapse of twenty years, sailed this port with a shrill blast of her whistle Good Friday evening when she ended her last visit to Maritime ports for the 1931-1932 season.

Scotland will send an official Trade Mission ship to Canada this spring with a view to developing closer business relations with the Dominion. Over a hundred Scottish firms have already booked space on the ship which has been fitted out for this purpose by the Corporation of Glasgow.

Her Majesty, Queen Mary, and her two sons, the Duke of York and Prince George, showed great interest in the Canadian Industries Fair at Olympia, London, on the occasion of their already booked party was received by Hon. G. Howard Ferguson, High Commissioner for Canada.

The highest Canadian mountain ascent was made in March when Russell H. Bennett of Minneapolis, Clifford White of Banff, and Joe Weiss of Basher, accomplished the unprecedented feat of climbing to the peak of the Snow Dome, centre of the vast Columbia ice fields. The peak is over 11,000 feet above sea level.

Bargain rates are forecast for western lines of the Canadian Pacific Railway, said C. B. Foster, passenger traffic manager of the railway. But already a party in Winnipeg after an official visit to the Pacific Coast. The successful experiment in popular low rates excursions in Eastern Canada this year has invited consideration of extension of the project to the West, he added.

In continuance of its policy of inter-city visits between the major centres of population in Eastern Canada, the Canadian Pacific Railway will on April 8 operate one of the most ambitious of these projects by running a round trip excursion from Toronto to Montreal at a cost below one-fourth of that of the ordinary return fare. There is every indication of heavy participation in the excursion.

All Canada as well as many interested foreign, men and women, will have an opportunity to witness the opening of the new Government General, a fair at Banff, to be held at the annual banquet at the Institute at Banff, on May 1st, at 7:30 p.m. It will be held at the Banff Hotel, and will be a most interesting event over the line of the Canadian Pacific Railway.

Starting on May 4th, the places of business in Stony Plain will close at 1 p.m. on Wednesdays.

## WHY SUFFER FROM HEADACHES,

Pain in and around the eyes? The right glasses fitted to your eyes will surely relieve you and give you comfort.

Glasses furnished Free. Ten dollars examination fee. That is far cheaper than paying \$3 to \$10 for an examination and then glasses at \$12 to \$15; but if you cannot see the logic of this; you need more than glasses.

M. M. Mecklenburg, 41 Years' Experience, 38 years in Western Canada, 10220 101st St., Edmonton. At Royal Hotel, Stony Plain, Friday, May 6th.

## THE HOUSE OF DREAMS-COME-TRUE

— BY —  
MARGARET FIEDLER

Author of  
"The Splendid Polly," "The Herald  
of Far End,"  
Hodder & Stoughton, Ltd., London.

### CHAPTER XVIII.—Continued.

For a moment they faced each other, his eyes, stormy as her own, dark with anger. His hands clenched themselves.

"If I could," he said hoarsely, "I would 'make' it my business."

He wheeled round and left the room without another word. Jean stared staring dazedly at the blank panels of the door which had closed behind him. She wanted to laugh . . . or to

*"I haven't been  
so happy  
for years"*

**"I've just  
thrown out all  
my dust clothes"**

—because I've found how to do the work better, easier and quicker.

I use Appleford Wonder Paper now. You buy it in a neat package that tucks away handily in a table drawer. Twenty-five large sheets for a quarter. When you use it, you simply crumple a sheet into a soft wad and go over whatever needs attention.

"I've never seen anything like Wonder Paper. It really dirts, cleans and polishes at the same time. It takes up dirt like magic, and so easily. And you can use both sides."

"What I used to loathe about dusting was the bother of keeping the dusters clean. I always used odds and ends of old shirts and the like—and it seemed to me I was eternally washing them. It worried me just to throw them into a bag or cupboard. They seemed so unsanitary."

"The beauty of Wonder Paper is that you throw it away when you're through with it."

"I can promise that you'll like Wonder Paper. It gives you time for things very much more attractive than dusting."

### Special Offer

WONDER PAPER is made by the makers of the famous PARA-SANI Heavy Waxed Paper in the Green Box. Most grocery, hardware and department stores have Appleford Wonder Paper in stock. If yours hasn't, send us the coupon below and we'll give you a booklet entitled "Wonder", containing one hundred recipes, as a bonus for your trouble.

Appleford Paper Products, Ltd.,  
Hamilton, Ontario.

Enclosed find 25c for which please send me one package of The Wonder Paper and your 100 recipes for "Lovers".

cry. To laugh, because with every sudden word he revealed the thing he was so sedulously intent on keeping from her. To cry, because he had taken her pretended indifference at its face value, and so another film of misunderstanding had risen to thicken the veil between them—the veil which he would not, and she, being a woman, could not, draw aside.

### CHAPTER XIX.

#### The Spider

Probably masculine obtuseness and the feminine faculty for dissimulation are together responsible for more than half the broken hearts with which the highways of life are littered.

The Recalcitrant Parent, the Other Woman—be she never so guileful—or the Other Man, as the case may be, are none of them as potent a menace to the ultimate happy issue of events as the mountain of small misunderstandings which a man and a maid in love are capable of piling up for themselves.

The man is prone to see only that which the woman intends he shall — and no self-respecting feminine thing is going to unveil the mysteries of her heart until she is very definitely assured that that is precisely what the man in the case is aching for her to do.

So she dissimulates with all the skill which Nature and a few odd thousand years or so of tradition have taught her and pretends that the Only Man in the World means rather less to her than her second-best, show-buckles. With the result that he probably goes silently and slyly away, convinced that he hasn't an outside chance, while all the time she is simply quivering to pour out at his feet the whole treasure of her love.

To this respect Blaise and Jean

bundered as egregiously as any other love-befogged pair.

Following upon their quarrel over the matter of Jean's attitude towards Geoffrey Burke, Tormarin retreated once again into the fastnesses of about reserve which seemed to deny the whole memory of that "magic moment" at Montvan. And Jean, because she was unhappy, flirted outrageously with the origin of the quarrel, sending a certain reckless enjoyment in the flavour of excitement lent to the proceedings by the fact that Burke was in deadly earnest.

Playing with an "unexploded bomb" at least sufficed to take her thoughts off other matters, and she gambled her momentarily to forget everything for which forgetting seemed the only possible and sensible prescription.

But you can't forget things by yourself. Solitude is memory's closest friend. So Jean, heedless of consequences, encouraged Burke to help her.

Lady Anne sometimes sighed a little, as she watched the two go off together for a long morning on the river, or down to the tennis-court, accompanied, on occasion, by Claire Latimer and Nick to make up the set. But she held her peace. She was no believer in direct outside interference as a means towards the unravelling of a love tangle, and all that it was possible to do, indirectly, she had attempted when she revealed to Jean the history of Blaise's marriage.

She did, however, make a proposal which would have the effect of breaking through the present trend of affairs and of throwing Blaise and Jean more or less continuously into each other's company. She was wisely enough to give its due value to the power of propinquity, and her innocently proffered suggestion that she and her two sons and Jean should all run up to London for a week, before the season closed, was based on the knowledge of how much can be accomplished by the skilful handling of a "partie carree."

The suggestion was variously received. By Blaise, indifferently; by Jean, with her natural desire to know more of the great city she had glimpsed en route augmented by the knowledge that a constant round of sight-seeing and entertainment would be a further aid towards the process of forgetting; by Nick, the sun of whose existence rose and set at Charnwood, with open rebellion.

"Why go to be baked in London, madonna, when we might remain here in the comparative coolth of the country?" he murmured plaintively to his mother.

They were alone at the moment, and Lady Anne regarded him with twinkling eyes.

## It does pay to "ROLL YOUR OWN"

From the standpoint of economy—each 20c. package of Turret Fine Cut contains the makings for at least 50 cigarettes—and Chantecleur cigarette papers free.

From the standpoint of real smoking pleasure, there's nothing like rolling your own with the smooth, mellow, fragrant Virginia tobacco that you get in the Turret Fine Cut package.

It does pay to roll your own with Turret Fine Cut.

15¢ and 20¢ packages  
also in ½ lb.  
vacuum tins

**TURRET**  
FINE CUT  
Cigarette Tobacco

FREE Chantecleur cigarette papers with every package, lowly.

"Frankly, Nick, because I want Jean for my daughter-in-law. No other reason in the world. Personally, as you know, I simply desire town during the season."

He laughed and kissed her. "What a Machiavelli in petticoats! I'd never have believed it of you, madonna. S'elp me, I wouldn't!"

"Well, you may. And you've got to back me up, Nick. No philandering with Jean mind! You'll leave her severely alone and content yourself with the company of your aged parent."

"Aged fiddlestick!" he jeered. "It weren't for that white hair of yours, I'd tote you round as my youngest sister. And I don't believe—severely—that it is white, really. I believe your maid powders it for you every morning, just because you were born in sin and know that it's becoming."

So it was settled that the first week of July should witness a general exodus from Slaple, and meanwhile the June days slipped away, and Tormarin sedulously occupied himself in adding fresh stones to the wall which he thought fit to interpose between himself and the woman he loved. While Jean grew restless and afraid, and flung herself into every kind of amusement that offered, wearing a little fine under the combined mental and physical strain.

Claire, perceiving the nervous tension at which the girl was living, was wistfully troubled on her friend's behalf, and confided her anxious bewilderment to Nick.

"I think Blaise must be crazy," she declared one day. "I'm perfectly convinced that he's in love with Jean, and yet he appears prepared to stand by while Geoffrey Burke completely monopolises her."

Nick nodded.

"Yes. I own I can't understand the

fellow. He'll wake up one day to find that she's Burke's wife."

"Oh, I hope not!" cried Claire hastily.

They were pacing up and down one of the gravelled alleys that intersected of the famous rhododendron shrubbery at Charnwood, and, as she spoke, Claire cast a half-frightened glance in the direction of the house. She knew that Sir Adrian was closeted with his lawyer, and that he was, therefore, not in the least likely to emerge from the obscurity of his study for some time to come. But as long as he was anywhere on the place, she was totally unable to rid herself of the hateful consciousness of his presence.

He reminded her of some horrible and loathsome species of spider, at times remote and motionless in the centre of his web—web in which, body and soul, she had been inextricably caught—but always liable to wake into sudden activity, and then pounce mercilessly.

"Oh, I hope not!" she repeated, shivering a little. "If she only knew what marriage to the wrong man means! . . . And I'm certain Geoffrey is the wrong man. Why on earth does Blaise behave like this?"—impatiently. "Anyone might think—Jean herself might think—he didn't care! And I'm positive he does."

"If he does, he's a fool. Good Lord!"—moodily kicking a pebble out of his path—"imagine any sane man, with a clear road before him, 'not taking it'!" He swung round towards her suddenly. "Claire, if there were only a clear road—for us! If only I could take you away from all this!"—his glance embracing the grey old house, so beautiful and yet so much a prison, which just showed above the tops of the tall-growing rhododendrons.

Claire glanced round her frightfully, as though the very leaves and blossoms had ears to hear and tongue to repeat.

"One never knows"—she whispered the words barely above her breath—"where he is. He might easily be hidden in one of the alleys that run parallel with this."

(To Be Continued.)

Many mothers can testify to the virtue of Mother Graves' Worm Expeller, because they know from experience how useful it is.

The snuff habit is being revived among women of Britain.

### Little Helps For This Week

"For God hath not given us the spirit of fear; but of power, and of love, and of a sound mind."—2 Timothy 1:7.

Lord and Father, great and holy! Fearing naught we come to Thee; Fearing naught, though weak and lowly.

For Thy love has made us free. By the blue sky bending o'er us. By the green earth's flowery zone, Teach us, Lord, the angel chorus, Thou art love and love alone.

—Frederic W. Farrar.

"Fear may create the enforced obedience of the slave, love only can win the devotion of the child, and that is why God hath not sent to us—who know the truth and whom the truth has made free—the spirit of fear and bondage, but of love, and of power, and of a sound mind. And this love is the sole basis of holiness."—Ibid.

Relief From Asthma. Who can describe the complete relief from suffering which follows the use of Dr. J. D. Kellogg's Asthma Remedy? Who can express the feeling of joy that comes when its soft and gentle influence relieves the tightened, choking air tubes! It has made asthmatic affliction a thing of the past for thousands. It never fails. Good druggists everywhere have sold it for years.

### Television Coming

Guglielmo Marconi, who announced that he had made successful tests of a new shortwave radio telephone, disclosed recently that he is turning his inventive genius to television. "I expect soon," he said in an interview, "to be able to see my family in New York while I speak with them by wireless telephone."

## Cross Baby

"Baby was awfully fretful," writes Mrs. H. A. Flewelling, Ripley, N.H., "until I started giving BABY'S OWN TABLETS. Now he is just wonderfully well." BABY'S OWN TABLETS are the ideal treatment for children's colds, fever, colic and upset stomach. Harmless. See certificate in each 25c package. 27

Dr. Williams' **BABY'S OWN TABLETS**

## Poultry--A Farm Asset.

Official records show that the poultry population of Canada has doubled each ten years during the period of the past 30 years. Each succeeding period of low prices for farm products finds the poultry flock coming to the farmers rescue. At the present time it can easily be shown that the poultry flock properly bred, housed and looked after is, from the standpoint of capital investment and feed cost, one of the best paying lines of farm effort.

Each succeeding year appears to make it more clear that the farm is the logical place for the development of the poultry industry with respect to both egg and meat production. There is usually an abundance of suitable feeds and the labor required is easily made available, while suitable housing facilities for chicks and laying hens are usually to be had without special cost.

The farm flock is a useful medium for the marketing of otherwise unsaleable products in the form of eggs and poultry meat. Where a fair sized poultry flock is kept, some revenue is always coming in. Banks and loan companies find the farm which has a poultry flock a much better risk than the one which has none.

There are three principal ways in which poultry flocks are maintained from year to year. These are, the setting hen, the incubator and the hatchery; and the most satisfactory source of chick supply is the hatchery because of the fact that the whole problem of brooding, rearing and production, being on a highly uniform basis, is simplified.

A farmer is not really in the poultry business until he has at least 100 laying pullets. A flock this size makes it possible for him to sell his eggs direct to the retailer, getting the benefit of higher prices than are possible when eggs are sold thru the usual trade channels.

To insure a pullet flock of 100 birds in the fall, it is necessary to start with around 250 chicks. Where chicks are purchased from the commercial hatchery, any desired number can be started at a given time, and the problems of management and feeding is simplified; the pullets in the flock mature at the same age, and go into the laying house in a condition suited to high production.

Both Dominion and Provincial Depts. of Agriculture recognize the importance of the poultry industry, particularly at this present time, and are assisting the farmer and others interested; and specially trained men are available to assist you with poultry problems.

Where practical advice and assistance with special problems is desired, get in touch with the Agricultural Agent in your district. You may also apply to Poultry divisions of Agricultural schools and colleges of Provincial and Federal Depts. of Agriculture, and to your nearest Federal Experimental farm or station.

Stony Plain on Fridays, all day

## Sunday's Storm.

During Sunday's early morning storm some damage was done in Stony and vicinity. In town the wind blew down a few electric light service wires, and these were repaired in the afternoon by a local man.

The Calgary Power Co.'s service was discontinued for over an hour Sunday morning, and also for a short time in the afternoon.

The same storm played havoc with the big rural telephone line running south from the Schultz corner, blowing over the poles for a considerable distance. A six-man repair gang were out here on Monday morning, and got busy on the work of repair.

## Holborn Happenings.

The annual break-up of the ice on the river is now in progress. It is expected that the Holborn ferry will be in operation this week, with Mr. Meads as ferryman.

The boxing bouts billed to be held here on the 8th had to be postponed, the principals being unable to attend, owing to the bad condition of the roads.

However, not to disappoint the 40-odd fans who had gathered to see the bouts, a few of the local mitt artists donned the gloves and entered the ring; among these were the Messrs Wm Mills vs Mike Anderson, who gave a good exhibition in a 3-round go; another pair who started in were Kurt Dressler and S A Wright; after these had gone two rounds Referee Don McDonald stopped the "go," as young Wright was not in condition.

The following Friday the 15th the crowd gathered once more, with the expectation of seeing the "big ones" get together. Benny Tait came all the way out from Edmonton with his two backers, to participate in the ten round final; after waiting until after nine p.m., a delegation motored on a search for Paul Schroder the other party to the main bout. On arriving at his boarding house, the delegation was informed Mr. Schroder had gone to a dance at Golden Spike, and this bout was declared off.

Two "go's" were run off—Mills vs. Anderson, and Hy Trapp vs. W Mills. Don McDonald, master of ceremonies.

The Edmonton boxer Benny Tait is anxious to have a go at his opponent, and this pair will probably meet in Stony Plain in the course of a few weeks.

Wanted, Butter and Legs of Pork. Royal Cafe.

For Sale—Hereford Bull; 18 months old; or will trade for horses or cattle. Otto Kloeck, Heatherdown.

2 Meals a Day, Plenty

Water, Helps Stomach. "Since I drink plenty water, eat good meals a day and take Adierka now and then, I've had no trouble with my stomach."—C. DeForest.

Unlike other medicines, Adierka acts on BOTH upper and lower bowel, removing poisonous waste which caused gas and other stomach trouble. Just ONE spoonful relieves gas, sour stomach and sick headache. Let Adierka give your stomach and bowels a REAL cleaning and see how good you feel! J. F. CLARKE drugist.

## How About "Flour Week"

and "dough" for everybody? asks an exchange. The elevators are said to be full, and to move the contents will improve business; so what would be wrong with having a "flour week"? The hausfrans would feed us on pies, puddings, cakes, and the old standby known as jam roly poly. Dumplings in stew are great, and even if we get lots of indigestion, we would be sure of lots of dough that week. What is better than getting your teeth into a deep apple pie after the style of a steam shovel biting onto a foundation? Doesn't the mention of it make your mouth water?

## Notices in the Postoffices.

At times we hear rather severe criticism of postmasters for taking down notices and advertising matter which may be stuck up in the P. O. It may be news to some that the P. M. is only doing his duty when he takes down notices, and that any criticism of his action is both unjust and unfair. Clause 273 of the Postal Regulations reads as follows:

Postmasters must not allow any notices to be put up in post-offices or postoffice lobbies, except those which are issued by the Postoffice Dept. or certain other Government notices, the display of which is authorised by the Postoffice Dept.

## TOWN OF STONY PLAIN.

### Assessment Roll, 1932.

NOTICE is hereby given that the Assessment Roll of the Town of Stony Plain for the year 1932 has been prepared and is now ready for inspection at the office of the Secretary-Treasurer from ten o'clock in the forenoon to four o'clock in the afternoon on every day which is not a public holiday except Saturday and on that day from ten o'clock forenoon until two o'clock in the afternoon and that any person who desires to object to the entry of his name or that of any other person upon the said Roll or to the assessment of any property or to the assessed value placed upon any property must within thirty days after the date of this Notice lodge a complaint in writing with the Secretary-Treasurer of the Town. Dated this 4th day of April, 1932.

JAS. MALLOCH,  
Secretary-Treasurer.

## STRAWBERRY PLANTS!

Why pay \$3 to \$4 per 100 for Strawberry Plants when you can get them delivered for \$1.50? The Senator Dunlops are heavy producers, guaranteed 100 p.c. to live and will not frost-kill in winter.

Gilbert Stebbings, Carvel.

## Reduction in the Price of the New 1932 Chevrolet

The New Low Prices are:

|               |        |                  |        |
|---------------|--------|------------------|--------|
| SEDAN.....    | \$1072 | PHAETON.....     | \$ 995 |
| Sedan Special | \$1116 | Phaeton Special  | \$1185 |
| COACH.....    | \$ 942 | COUPE.....       | \$ 987 |
| Coach Special | \$1017 | Coupe Special... | \$ 958 |

## Freight Truck License Fees

PROVINCE OF ALBERTA

### CLASSIFICATION OF TRUCKS.

All freight vehicles and trucks, in addition to paying the fees set out below, must also pay the usual motor vehicle license as formerly, according to wheel base measurement.

CLASS A.—Includes all trucks used as public carriers for freight haulage. Fees printed below.

CLASS B.—Includes all freight vehicles other than those in the other classes. Fees printed below.

CLASS C.—Includes trucks operating within cities, towns and villages. These are permitted to operate outside to the extent of five miles beyond the corporate boundaries of the cities, towns or villages in which they are licensed. No fee in this class other than usual motor license.

CLASS D.—Includes trucks owned by farmers, market gardeners, or ranchers and used for the transporting of their own property. No fee other than usual motor license.

CLASS E.—Includes trucks in Classes "C" and "D" used for hauling grain between August 1st and December 31st in one year. Fees in this class one-quarter of those in Class "B".

### FEES FOR CLASSES "A" AND "B".

Fees for Classes "A" and "B" are figured on gross weight, which shall mean the combined weight of the chassis, body and cab of the freight vehicle and the manufacturer's rated carrying capacity.

Fees in these classes range from 50 cents per 100 lbs. to \$1.75 per 100 lbs., according to their weight classification.

Applications for truck licenses, stating weight and carrying capacity of truck, should be made to

E. TROWBRIDGE,

Deputy Provincial Secretary,

Edmonton, Alberta.

## CONFIDENCE!

Farmers who do business with this Company are confident of safety, of good treatment and efficient service. That is based on the company's record and reputation and the experience of western farmers during more than a quarter of a century.
